RIYA SINGH

Jaipur, India | +91 6367238001 | cse.riyasingh@gmail.com | linkedin.com/in/riya-singh-b4b7b0252 | github.com/riyasingh04-dev

PROFESSIONAL SUMMARY

Results-driven Data Analyst and Python Developer with 2+ years of experience delivering scalable ML models, NLP solutions, and data-driven web applications. Proven ability to transform raw data into actionable insights using advanced analytics, deep learning, and LLM integration. Adapt at full-stack data pipelines, predictive modelling, and cross-functional collaboration in fast-paced environments.

TECHNICAL SKILLS

Languages & Frameworks: Python, FastAPI, Django, HTML, CSS, OOP
Data Science & AI: Machine Learning, Deep Learning, NLP, LLM Integration, RAG, LSTM/BiLSTM, EDA, Feature Engineering
Data & Visualization: NumPy, Pandas, Scikit-learn, Seaborn, Plotly, Tableau, Excel
Databases & Tools: MySQL, SQLAlchemy ORM, Git, GitHub, JWT, OAuth

PROFESSIONAL EXPERIENCE

Data Analyst | Techmind Wizard Pvt. Ltd. — Jaipur, Rajasthan *Jul 2024 – Apr 2025*

- Engineered full-stack web applications using Python Django and JavaScript, delivering production-ready solutions for enterprise clients.
- Executed 3+ data analysis projects extracting actionable business insights, reducing manual reporting effort by 30%.
- Collaborated cross-functionally to design database schemas and optimize MySQL query performance for high-traffic workflows.

Data Analyst | Infique AI Services Pvt. Ltd. — Jaipur, Rajasthan *Aug 2023 – Apr 2024*

- Architected CRM and ERP systems using Python Django and MySQL, streamlining data and workflow management for 500+ institutional users.
- Developed an ML-powered Email Escalation System that automatically classified escalated emails from large unstructured datasets, improving triage accuracy by 35%.
- Built an AI-integrated Invoice Generator managing credit/debit transactions and auto-generating balance sheets, reducing manual accounting effort by 40%.
- Delivered 5+ data analysis projects using NumPy, Pandas, Seaborn, Plotly, and Tableau, converting raw datasets into executive-ready visual insights.

PROJECTS

AI-Powered Multi-Role Chat Application | *FastAPI, Python, JWT, OAuth, MySQL, Jinja2*

- Built a secure multi-user AI chat application with role-based response modes (Teacher, Debugger, Interviewer) serving concurrent users.
- Implemented layered authentication using Google OAuth, JWT tokens, and session middleware, achieving zero security vulnerabilities in testing.
- Integrated AI memory handling with chat-clear functionality and protected routes via FastAPI dependency injection.

Stock Price Prediction — Next-Day OHLC Forecasting | *Python, LSTM, BiLSTM, Pandas, NumPy*

- Designed an end-to-end deep learning pipeline (LSTM & BiLSTM) for next-day stock price prediction with preprocessing, training, and evaluation stages.
- Achieved high-accuracy OHLC forecasting on NSE equities by optimizing sequence length and model hyperparameters.

Domain-Specific NLP Chatbot | *Python, NLP, Web Scraping, Wikipedia API*

- Developed a domain-constrained chatbot using Wikipedia-scraped data and classical NLP techniques, restricting responses to relevant queries for improved precision.

EDUCATION

B.Tech in Computer Science Engineering | Rajasthan Technical University (Arya College, Jaipur) | 2023 | 82.5%

CERTIFICATIONS & ACHIEVEMENTS

- Python-Django Summer Training Program | Data Science Summer Internship Program
- Python Bootcamp with Regex | Data Analysis with Python | AI & Its Applications Workshop
- Presented review paper: "Survey on Development of Operating System" — RTU Kota & AIETM Jaipur
- Awarded Gargi Puraskar for academic excellence (80%+ in 10th Standard, Rajasthan Board)
