PROFESSIONAL SUMMARY

Results-driven Data Analyst and Python Developer with 1+ years of experience building scalable ML models, NLP pipelines, and production-grade web applications. Delivered measurable business impact across CRM, ERP, and forecasting systems — including a 40% reduction in manual accounting effort and 35% improvement in email triage accuracy. Adapt at translating complex datasets into executive-ready insights and collaborating cross-functionally in fast-paced environments.

TECHNICAL SKILLS

Languages & Frameworks: Python, FastAPI, Django, HTML, CSS, OOP
Data Science & AI: Machine Learning, Deep Learning, NLP, LLM Integration, RAG, LSTM/BiLSTM, EDA, Feature Engineering
Data & Visualization: NumPy, Pandas, Scikit-learn, Seaborn, Plotly, Tableau, Excel
Databases & Tools: MySQL, SQLAlchemy ORM, Git, GitHub, JWT, OAuth

PROFESSIONAL EXPERIENCE

Data Analyst | *Techmind Wizard Pvt. Ltd.* — Jaipur, Rajasthan Jul 2024 – Apr 2025

- Engineered 3+ full-stack web applications using Python Django and JavaScript, reducing manual reporting effort by 30% and delivering production-ready solutions for 5+ enterprise clients.
- Executed data analysis pipelines on 100K+ row datasets, surfacing actionable business insights that informed quarterly strategy decisions across 3 departments.
- Optimized MySQL query performance for high-traffic workflows, cutting average query execution time by 40% through schema redesign and indexing strategies.
- Collaborated cross-functionally with engineering and business teams to define data requirements and deliver scalable database architecture.

Data Analyst | *Infique AI Services Pvt. Ltd.* — Jaipur, Rajasthan Aug 2023 – Apr 2024

- Architected CRM and ERP systems using Python Django and MySQL, streamlining data and workflow management for 500+ institutional users across 4 departments.
- Developed an ML-powered Email Escalation System that automatically classified escalated emails from large unstructured datasets, improving triage accuracy by 35% and saving ~10 hrs/week in manual review.
- Built an AI-integrated Invoice Generator managing credit/debit transactions and auto-generating balance sheets, reducing manual accounting effort by 40% and eliminating calculation errors.
- Delivered 5+ executive-ready data analysis dashboards using NumPy, Pandas, Seaborn, Plotly, and Tableau, enabling leadership to track KPIs in real time.

PROJECTS

AI-Powered Multi-Role Chat Application | *FastAPI, Python, JWT, OAuth, MySQL, Jinja2*

- Built a secure multi-user AI chat application with 3 role-based response modes (Teacher, Debugger, Interviewer), supporting concurrent sessions with zero security vulnerabilities in testing.
- Implemented layered authentication using Google OAuth and JWT tokens with session middleware, achieving full OWASP compliance across all tested attack vectors.
- Integrated AI memory handling with chat-clear functionality and route protection via FastAPI dependency injection, reducing average response latency by 20%.

Stock Price Prediction — Next-Day OHLC Forecasting | *Python, LSTM, BiLSTM, Pandas, NumPy*

- Designed an end-to-end deep learning pipeline (LSTM & BiLSTM) for next-day OHLC stock price prediction on NSE equities, achieving 92%+ directional accuracy after hyperparameter tuning.
- Optimized sequence length and model architecture across 15+ experiments, improving Sharpe ratio by 0.15 and reducing forecast RMSE by 18% vs. baseline.

- Automated preprocessing, training, and evaluation stages, cutting model retraining time from 4 hours to under 45 minutes.

Domain-Specific NLP Chatbot | *Python, NLP, Web Scraping, Wikipedia API*

- Developed a domain-constrained chatbot using Wikipedia-scraped data and classical NLP techniques, restricting responses to relevant queries and achieving 88% precision on out-of-domain rejection.
- Processed 10,000+ Wikipedia articles to build a custom knowledge base, enabling context-aware Q&A with sub-second response times.

EDUCATION

B.Tech in Computer Science Engineering | Rajasthan Technical University (Arya College, Jaipur)2023 | GPA: 82.5%

CERTIFICATIONS & ACHIEVEMENTS

- Python-Django Summer Training Program | Data Science Summer Internship Program — hands-on experience building production Django apps and end-to-end ML pipelines.
- Completed Python Bootcamp with Regex, Data Analysis with Python, and AI & Its Applications Workshop, totalling 120+ hours of technical coursework.
- Authored and presented a peer-reviewed paper: "Survey on Development of Operating System" at RTU Kota & AIETM Jaipur (2023).
- Awarded Gargi Puraskar by the Government of Rajasthan for academic excellence (80%+ in 10th Standard, Rajasthan Board) — awarded to top 0.5% of female students statewide.
